ABOUT ME

Hardworking and enthusiastic College Graduate aiming to build a strong foundation in the software industry. Completed a Diploma in Computer Engineering and looking forward to applying technical skills and communication abilities in a practical, growth-focused environment. Dedicated, collaborative, and always eager to learn new technologies. Committed to contributing as a dependable and valuable team member.

EDUCATION

2022 - 2025

Bharti Vidyapeeth's Jawaharlal Nehru Institute of Technology,

Diploma in Computer Technology

Successfully completed a three-year Diploma in Computer Technology, gaining a solid foundation in programming, software development, databases, networking, and computer hardware. The coursework emphasized both theoretical knowledge and practical application through lab sessions, mini-projects, and seminars. Developed strong problem-solving skills, coding proficiency, and teamwork experience, preparing for real-world IT and software roles.

2025-2028

Zeal College of Engineering and Research

B-Tech in Information Technology

Currently pursuing a B.Tech in Information Technology with a focus on advanced computing, data structures, web development, and emerging technologies. The program emphasizes project-based learning, teamwork, and practical implementation of core IT concepts. Building strong analytical and technical skills through academic projects, coding challenges, and research activities, preparing for a career in software development and IT innovation.

SKILLS

- Programming: C, C++, Python, Java, XML
- Web Development: HTML, PHP, MySQL
- Tools: VS Code, Git, Arduino IDE, Android Studio
- Soft Skills: Teamwork, Communication, Problem Solving

PROJECTS

- Robotics: Built a Landmine detection Vehicle using Arduino uno and esp32 with C++.🔗
- Mobile Application Development: Developed an application about parental control over phone and total focus without distraction from phone, using Java and Xml.🔗
